Interests

Modern teaching
Social dancing
Rowing
Board games

Szymon Sobiepanek

Experienced web developer, thrilled to learn new technologies. A former rower and therefore a self-motivated team player with a passionate interest in teaching projects, training his soft skills while working afterhours as volunteer coordinator.

💡 Experience

02/2021 - Present

(remotely)

Senior full-stack Developer - SynergyCodes

- Working in Research and Development, implementing solutions for company's new projects (TypeScript, GraphQL, Appolo, React, Redux, GoJS)
- Developing lots of small, agile projects and POCs for new customers, working closely with customers technical teams
- Handling basic DevOps setups and tasks (Docker, K8s, Azure, Bitbucket Pipelines)

06/2020 - 01/2021

(remotely)

Senior full-stack Developer - SolDevelo

- Developing an application based on microservices architecture with JavaScript (including TypeScript, React, Redux) hosted on Firebase
- Designing and implementing the process of splitting a monolith Ruby on rails/React application into modern architecture
- Working in a multinational team of experienced developers in Scrum

12/2015 - 05/2020

(remotely since 9/2018)

Full-stack Developer - Blink Software

- Developing a medtech application (React + Redux, Node + Express, PostgreSQL) integrated with 3rd-party APIs including identity platform Auth0, support portal LiveAgent and Amazon S3
- Mentoring junior developers on JavaScript and development tools

07/2015 - 12/2015

Junior full-stack Developer - Flow2Code

- Developing single page application with Angular JS and server application in Java using Spring MVC

🎓 Education

10/2016 - 5/2020

Bachelor of Science in Teaching of Mathematics and Computer Science at Adam Mickiewicz University in Poznań
