Szymon Sobiepanek

Web developer thrilled to learn new technologies. A former rower and therefore a self-motivated team player with a passionate interest in voluntary teaching projects.

Experience

12/2015 - Present (remotely since 9/2018)	Full-stack Developer - Blink Software • Developing backend side of multiplication project in Node • Creating single page application with React and Redux • Designing and implementing database solution in PostgreSQL • Integrating 3rd-party APIs including identity platform Auth0, support portal LiveAgent and Amazon S3 • Writing unit tests, e2e tests and API tests using AVA and TestCafe • Working in multinational start-up environment • Mentoring junior developers on JavaScript and development tools • Maintaining inherited project in React and PHP
07/2015 - 12/2015	Junior full-stack Developer - Flow2Code • Developing single page application with Angular JS • Maintaining server application in Java using Spring MVC

Education

10/2016 - Present	Bachelor of Science in Teaching of Mathematics and Computer Science at Adam Mickiewicz University in Poznań expected graduation 9/2019
10/2012 - Present	Bachelor of Engineering in Computer Science at Adam Mickiewicz University in Poznań expected graduation 9/2019
10/2012 – 10/2015	Bachelor of Science in Financial Mathematics at Adam Mickiewicz University in Poznań

Volunteer Experience

9/2018 – Present	Tutor – "POLITES" Association, Szczecin
10/2014 - Present (remotely since 9/2018)	Tutor – "Lepszy Świat" Association, Poznań

In both these volunteering projects, I work with children, teach them and help with school issues. My core responsibility is to guide them to self-confident and happy adulthood by building strong personalities.
